## Product Description

Welcome to the world of Merriment!

- This brand-new mini garden collection by Mary Engelbreit features 13 fairies, each with their own unique interests, hopes, and dreams. These 13th friends live in a special place where imagination flourishes and creativity thrives. **Ann Estelle**, the Queen of Everything, has big ideas that don't always work out, but it doesn't stop her from following her dreams. Whether knitting a scarf or sewing a quilt, **Charlotte** loves creating hand-made gifts for her friends.

Each year, **Jewel** looks forward to the joys of Spring — listening to the birds sing, watching the trees bud, and caring for baby bunnies. **Will**, who loves the great outdoors, enjoys fishing at the pond or camping in the woods with his friends.

**Sarah** enjoys time at the beach, splashing in the waves, and building sandcastles with her friends.

**Maisie** is an artist — and a dreamer — who loves painting outdoors. **Mikayla**, the bookworm, enjoys reading a great story while warming up beneath the sun. **Eva** is a gardener who is strong-willed and determined to grow her own food so she can share it with her friends.

**Gigi** is a brave, spontaneous, and quick-witted explorer who is always ready for a new adventure. **Lily**, always with a smile on her face, enjoys taking a moment to stop and smell the beautiful roses she loves to plant in her garden. Inspired by the enchanting sounds of the sea, **Agnes** enjoys singing songs in harmony with her many sea-friends.

**Annie** has an intuitive connection to the sea and all the wondrous creatures who live there. **Millie** nurtures and protects all of her sea-friends like fish, crabs, and dolphins.

Each mini figurine features all-weather paint, made of resin, and SOLD SEPARATELY.
