Product Description

Rubber sole

ECO-FRIENDLY - Made from 100% recycled plastics woven with Truspring technology, the sock is comfortable and breathable

SPLASH PROOF - Perfect for splashing! Splash resistant - ideal for when they find those irresistible little puddles

PROTECTIVE SOLES - Specially designed Turtl Shell protects those little feet from their heel to the tip of their toes. The turtle shell patterns give a grippy surface for all of their adventures

BREATHABLE STAY ON SOCK SHOES - Perforated for added breathability, the removable insole is made from an algae foam called BLOOM - a harvested algae biomass which manages excessive algae growth allowing the recirculation of clean water. The sock's material will hug their little feet meaning they won't fall off

FLEXIBLE AND DURABLE - Our Phthalate-free (a nasty chemical) TPR Shell sole is fully recyclable, slip-resistant, and flexible. The hardwearing rubber-like material is perfect for all terrains

Choose size from the drop down window. Each sold separately.
